PROJECT EXPERIENCE

1. *Food-ordering Web-application*: It is a single page food ordering app. *Click to check*
2. *Image Searching Web-application*: An image searching web app which uses Unsplash image-API to get image data. *Click to check*
3. *Expense Tracker*: This expense tracker allows you to add expenses, monitor and categorize your expenses across different years. However, I didn't use any database to store the expense data. *Click to check*
4. *Tic-Tac-Toe Game*: It is an interactive Tic-Tac-Toe game. I used React and its hooks to build a fun Tic-Tac-Toe application. *Click to check*
5. *Weather Web-application*: In this project, I build a weather application. This web application will show the temperature of a location. To fetch weather information, I used an API (Openweathermap API). *Click to check*
